E-mail: nidhiece15@gmail.com

Theme of Session:

The main aim of this special session is to provide opportunity to the scientific community to utilize their knowledge in the field of signal processing, speech processing, image processing, wireless and mobile communication, optical

communication, satellite communication, RF and microwave, antenna design, multimedia communication, internet of things, internet of medical things etc.

With this session, the various researchers and academicians can be brought to a common multi-stream platform so that they can present their new models and ideas.

Topics of Interest:

Based on the above-mentioned theme, the topics of interest are (but not limited to):

- Signal analysis and processing
- Digital signal processing and embedded systems
- Image processing, speech processing, music processing and video processing
- Medical image processing
- Pattern recognition
- Computer communication and networking
- RF and Microwave Engineering
- Antenna design and optimization
- Wireless and Mobile communication
- Optical communication and networks
- Satellite communication and radar
- Internet of things
- Internet of medical things

Technical Committee:

1. Dr. Dinesh Verma, Associate Professor, Panipat Institute of Engineering and Technology, Samalkha, Panipat, Haryana, India
2. Dr. Jagtar Singh, Assistant Professor, N.C.College of Engineering, Israna, Haryana, India
3. Dr. Aman Dahiya, Assistant Professor, Maharaja Surajmal Institute of Technology, New Delhi, India

Paper Submission Process: (By Email to the following ID only)

Please submit your paper (in word & pdf format) at Email: anand.rohit2011@gmail.com with “**Special Session-RTSPCI**” mentioned in the subject line.
